

Renewable Energy

Section 203 of the 2005 Energy Policy Act (Pub.L. 109-58) defines Renewable Energy as: "The electric energy, measured in megawatt-hours (MWh), which is generated from solar, wind, biomass, landfill gas, ocean (including tidal, wave, current, and thermal), geothermal, municipal solid waste, or new hydroelectric generation capacity achieved from increased efficiency or additions of new capacity at an existing hydroelectric project, and is physically delivered into the electric grid."
